

EMDIRENAL RT6

General purpose polymer with high filling power to improve grain fullness.

Descriptive properties

Composition	: Acrylic copolymer
Appearance	: Light amber liquid
pH (1:10)	: 6,0 - 7,0
Solubility in water	: Easily soluble in water at 35°C
Storage	: Minimum 1 year - dry storage-

Emdirenal RT6 has a wide range of applications but its most important characteristic is its filling power: by its selective filling effect it leads to a firm and elastic grain.

Emdirenal RT6 also improves the exhaustion of chrome tanning agents.

Leathers treated with Emdirenal RT6 show excellent grain fullness with improved dye distribution.

Application recipes

2,0 -4,0 % based on wetblue shaved weight.

Remarks

Please refer to its MSDS.

Packaging

120 kg in polyethylene drums.

The information given in this technical leaflet is offered in good faith and is based upon our knowledge and experience of the products used. The suitability of the products mentioned to obtain specific properties or effects are given without obligation or guarantee and should be fully tested by the end user and adapted to suit prevailing works conditions or other products which may be employed.
