

## DEBASOFT FLT

*Specialty for improved water resistance and touch.*

### Descriptive properties

<b>Composition</b>	: Based on fluorocarbon resins free of PFOA
<b>Appearance</b>	: Milky emulsion
<b>Charge</b>	: Weakly cationic
<b>Solubility in water</b>	: Emulsifiable with water
<b>Stability</b>	: Not stable to acids, electrolytes, pickle and chrome liquors
<b>Storage</b>	: Minimum 1 year - dry storage-

Debasoft FLT while improving water resistance imparts oil repellency and stain resistance without much changing the touch.

Debasoft FLT will improve dye shade and brilliancy.

### Application recipes

Apply with spray gun without diluting.

### Remarks

Protect from frost and high temperatures.  
For further information please refer to its MSDS.

### Packaging

120 kg in polypropylene drums.
